

# HOMESCHOOL SUPPORT

Christine Leone, Educator

## Advantages:

- Structure
- Flexibility
- Partnership
- Community
- Experience/Expertise

## Who Am I?

I am a teacher who taught in the Chicagoland suburbs for 5 years prior to focusing my time at home as a mother of 4 children. During my experience with the public school structure, I realized that each of my children were both thriving and struggling on unique levels. The choice was made to homeschool 1 year and see if there would be any difference. To my surprise, there was much improvement for everyone. We

were hooked! 18 years later, I am providing structure and support for other families embarking on their home-schooling journey. I have had the pleasure of partnering with over 75 families over the past 10 years and it has been a joy to witness these students fulfill their dreams. Recently I have had the pleasure of supporting a family that lives with MEN2b as well as students with other medical conditions that add an additional layer of educational complexities due to his or her physical challenges. References available upon request.

## How Do I Help?

I provide a 32 week program that paces nationally-accredited curriculum with online Zoom “classroom” sessions held 2 days a week. I provide enrichment, students work together on some assignments in the Zoom breakout rooms, and can work with a student 1:1 if needed at times.

*“The function of education is to teach one to think intensively and to think critically. Intelligence plus character– that is the goal of true education.”*

*-Martin Luther King Jr.*

## How Much Does It Cost?

The 32 week classroom is divided into 8-\$150 monthly payments. There is also a semester material fee of \$100.
